

PUEO

BUSINESS SOLUTIONS

OUR SIMPLE PHILOSOPHY

Upon leaving government service, we set out to offer differentiating value through the overwhelming delivery of three core elements to serve mission (vs corporate) interests – **innovation, education, and expertise.**

Provide immediately-available, innovative technologies to advance mission Day 1 through PoP End.

Guide customer completion of targeted learning opportunities to assume and sustain operations.

Offer only the best experts who hold the right credentials AND the relevant experiences for success.

In our first year we experienced 30x growth (10x our year 1 goal), we helped our partners win \$2.2B, and we successfully led transitions in some of the most critical and challenging endeavors – completely overhauling enterprise solutions that had been in place for more than a decade.

OUR CUSTOMERS

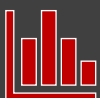

We delivered our solutions across all spectrums of IT and Business Management ... the result was overwhelming satisfaction and value-added differentiators to a broad customer set.

THE TEAM

Our portfolio of diverse experiences spans the military, government, academia, and business environments where our team has acquired unparalleled insight, skillsets, and relationships. We are proud to serve those who have served to keep our nation safe, employing veterans from many diverse service backgrounds. Our dedication to National Security endeavors require that we possess and maintain the requisite clearances at the highest levels. Three former government executives and numerous members who served within the government offer unrivaled perspectives into government operations. In addition to numerous advanced degrees, our members maintain relevant certifications and merit through the highest awards.

COMMUNITY SERVICE

With a firm commitment to National Security, Pueo strives to meet its service objective that is ...

Provide disadvantaged community members paths to serve in the Intelligence Community – simultaneously advancing career opportunities and our National Security.

Pueo strives to build awareness, appreciation, and readiness for all the Intelligence Community entails. We provide mentorship, tuition, funded training, and job opportunities to help our IC fledglings achieve fulfilling careers. Beyond national security and job opportunities alone, our efforts help to instill the discipline and moral fabric necessary that is necessary to be entrusted with our nation's secrets.

SOCIO-ECONOMIC DESIGNATIONS

A Small-Disadvantaged Business, Service Disabled Veteran Owned Small Business, HUB Zone and 8(a) Programs Participant, we help Federal and DoD agencies achieve their socio-economic contracting goals.

Did you know that through DoD's Indian Incentive Program, prime contractors who sub-contract work to Pueo (a Native Hawaiian Owned company) can earn a 5% rebate on all DoD work sub-contracted to Pueo?
